DIMENSIONAL DATA

DESCRIPTION

This architectural fixture offers an innovative solution for upscale, smart LED illumination without compromising strength. When the aesthetics and design is as important its durability, this vandal resistant fixture is the answer. The housing and face plate are both die-cast aluminum and provides exceptional durability and stability in the harshest of environments. We are pleased to offer a solution for higher end applications with our architectural luminaires. This fixture is IP65 rated, dust proof, splash proof and rugged enough for any demanding situation. This is ideal for any installation requiring a stylish option for today's green lighting needs while delivering protection from the extremes of Mother Nature or defacement from vandalism.

APPLICATION

- Public Areas
- Schools
- Hospitality
- Exterior Wall
- Corridors/Stairways
- Underpasses

SPECIFICATION FEATURES
